

Go Higher with BTEC Higher Nationals

YouTube Transcript

Are you looking for a practical, cost-effective, and career-focused higher education option? BTEC Higher Nationals at Level 4 and 5 qualifications are equivalent to the first two years of an undergraduate degree. They allow you to develop career-focused experience and academic knowledge. The Level 4 HNC gives you a clear pathway to progress onto the Level 5 HND. Many of our Higher Nationals in England are approved HTQs, meaning they have an added layer of employer involvement in course design. After your studies, you can choose to top up and gain a degree or enter employment within your chosen industry. Higher Nationals typically have lower tuition fees than university degrees. In fact, many HND graduates have a higher earning potential once they enter the workforce. Open the door to opportunity and explore BTEC Higher Nationals.
