

ICTCM 2024 Recap Video

TRANSCRIPT

2024

ICTCM

At the Edge of Math's Future

Thomas Hartfield:

Each time I come to ICTCM, I learn something that I can take back directly to the classroom.

Joseph Maxwell:

This is actually my first ICTCM. Every panel is very intimate. You get an opportunity to build a rapport with the presenters.

Si Park:

I love making connections with different people in academia.

Christal Schoen:

I just wanted to see what they had to offer, and I was pretty impressed.

Lourdes Espana:

I think it's for everybody, whether you're a new faculty, whether you're a senior faculty.

Jennifer Huri:

Going to a presentation on that, I'm like, "Oh, I can totally implement this. This will be great!"

Lourdes Espana:

That little thing that you learn can make a difference in your classroom.

Si Park:

This is something that I would like to come back next year as well.

*Thank you for attending ICTCM 2024 in New Orleans.
We hope to see you again in 2025!*
