

Pearson ICTCM Promo Video TRANSCRIPT

Math. It's full of constants. But teaching? It's filled with change. And collegiate educators need to keep up to keep their students going strong.

Put yourself at the forefront of mathematics and statistics education with Pearson's International Conference on Technology in Collegiate Mathematics.

Known as ICTCM, this premier annual conference has been bringing together the best minds in mathematics and statistics education for more than 35 years.

Here, we dive into the latest tech-driven tools. We share the newest teaching strategies. And we spend three days building a professional community committed to bringing course concepts to life for every student in every classroom.

Our attendees have said, "This is the one."

"This is the whole package."

"My dream conference is ICTCM."

Be where collegiate mathematics and statistics education moves forward. Be in front of the change.
