

# Pearson MyLab Health Professions Spotlight Video TRANSCRIPT

## *Pearson MyLab Health Professions*

Looking for an engaging way to learn both in and out of the classroom? Discover MyLab Health Professions, the all-in-one digital platform from Pearson that helps students not only master but also apply critical healthcare skills.

Tailored to support a wide range of allied health disciplines, from basic health sciences and medical assisting, to medical insurance billing and coding, MyLab is built to meet your course needs. With features customized to each discipline and textbook, MyLab ensures that every course and every student receives the tools they need to succeed.

MyLab Health Professions includes a **wealth of practice opportunities** integrated with your text. This includes homework, quizzes, case studies, and practice certification exams.

**Personalized, adaptive learning** helps students streamline and optimize their study sessions.

With **Decision Making Cases**, learners build clinical reasoning skills by deciding how to act in a range of situations.

### ***Male Medical Assistant***

“It’s a good thing you didn’t try to do this work by yourself this morning before I got here. You really could have gotten hurt.”

### ***Female Medical Assistant***

“I know. Thanks for arranging your schedule so we could work together.”

**Dynamic Study Modules** adapt to students’ performance by responding to their strengths and weaknesses. As they go, learners build confidence and deepen their understanding.

Students even receive a personalized **Study Plan** based on their performance on assignments.

**EHR simulations** introduce students to medical assisting and health care core tasks they’ll perform as professionals.

With **videos, animations, games, and activities**, MyLab Health Professions has something for every type of learner. All this plus the convenience of Pearson eText, a robust gradebook, instructor resources, and communication tools.

Students who think like healthcare professionals. Instructors who prepare them for success. That's the power of MyLab Health Professions.
