About the GSE

Pearson developed the Global Scale of English (GSE) to provide instructors and learners with a more granular understanding of English language proficiency. It has been designed to build learners' confidence by revealing exactly where they are on their learning journey and setting personalised goals to help them progress.

The GSE is an ecosystem that underpins the Pearson English Journey:

- **GSE Scale:** a proficiency scale from 10 to 90, with clear statements for what a learner can achieve in speaking, listening, reading, and writing at any point on the scale.
- **GSE Learning Objectives:** descriptions of what learners can do at each level of proficiency in speaking, listening, reading, and writing.
- **Courseware:** all of Pearson's English language learning courseware is developed using the GSE Learning Objectives.
- **Assessment:** institutions can develop their own assessment materials using the GSE Learning Objectives and Assessment Frameworks or choose one of Pearson's digital assessments which report on the GSE.

The GSE is the result of many years of research with more than 6,000 teachers from over 50 countries. It serves as a standard against which English language courses and assessments worldwide can be benchmarked.

It has been psychometrically aligned to the Common European Framework of Reference or CEFR (see De Jong, Mayor, & Hayes, 2016). The GSE complements and extends the CEFR by adding an extra layer of detail to the CEFR levels and providing thousands of additional learning objectives. This extra information helps learners understand where they are now and offers a step-by-step guide to where they want to go next. Using the GSE, teachers can match a student to course materials to suit their exact level and learning goals.

CEFR level	GSE Scale
Below A1	10–21
A1	22–29
A2	30–35
A2+ ('plus level')	36–42
B1	43–50

B2+ ('plus level')	67–75
C1	76–84
C2	85–90

Table 1: The relationship between the GSE Scale and the CEFR

To address the specific needs of learners studying English for different purposes, GSE Learning Objectives have been developed for five different learner audiences:

- **adult:** adults studying on a general English course
- **academic:** adults studying academic English
- **professional:** adults studying English for the workplace
- **young learner:** English language learners aged 6–14
- **pre-primary:** English language learners aged 3–5

Alignment methodology

For the purposes of this alignment, we worked with the 2016 list of WIDA Can Do statements for Grade 1. We are aware that the WIDA framework was revised in 2020 but any changes to the Can Do statements have not yet been made publicly available. For that reason, we have retained the Sections and Sub-Sections from the 2016 list. However, the WIDA 2020 framework was consulted for the alignment.

Each WIDA Can Do statement was aligned to one or more GSE Learning Objective. Given the age range for Grade 1, GSE Learning Objectives for Young Learners were used.

The GSE ranges for each grade are broad, reflecting the range in WIDA proficiency levels from Entering to Reaching. For the purposes of the alignment table, data is included from Entering to Bridging, given that Reaching is generally considered to be beyond the level of an ELL in any grade year. Alignment of GSE Learning Objectives to WIDA Reaching level descriptors is, however, included in the detailed tables in this document.
