

# CONTENTS

<b>Preface</b>	<b>xix</b>
<b>CHAPTER 1 Introduction to developmental psychology</b>	<b>2</b>
What is developmental psychology?	4
Historical foundations	5
Developmental controversies	6
<i>Nature or nurture</i>	6
<i>Continuity versus discontinuity</i>	6
<i>Paths of development: Universal or culturally influenced?</i>	7
Approaches to developmental psychology	7
<i>The normative-descriptive approach</i>	7
<i>Freud's psychoanalytic theory</i>	9
<i>Erikson's neo-Freudian theory</i>	10
<i>Piaget's cognitive theory</i>	11
<i>Learning theory</i>	11
<i>Bandura's social cognitive theory</i>	13
<i>Ethological theory</i>	14
<i>Contextual theories</i>	15
<i>Bronfenbrenner's ecological theory</i>	16
<i>Vygotsky's sociocultural theory of cognitive development</i>	16
<i>Dynamic-systems theory of development</i>	18
<i>Lifespan developmental psychology</i>	19
Theories of development compared	19
Research in developmental psychology	20
Data-collection methods	21
<i>Experimental designs</i>	21
<i>Correlational designs</i>	22
Research methods	22
<i>Observational method</i>	22
<i>Interviews</i>	23
<i>Standardised tests and questionnaires</i>	23
<i>Case studies</i>	24
<i>Archival records</i>	24

CHAPTER

1

Popular developmental research designs	25
<i>Cross-sectional designs</i>	25
<i>Longitudinal designs</i>	26
<i>Sequential designs</i>	26
<b>Research Focus 1.1: Longitudinal research design: The Australian Temperament Project</b>	<b>26</b>
<i>Microgenetic designs</i>	28
Ethics and developmental psychology research	28
<i>Research integrity and respect for participants</i>	29
<i>Informed consent</i>	29
<i>Research merit and safety</i>	30
<i>Confidentiality and privacy</i>	30
<i>Research involving children and young adolescents</i>	30
Conclusion	31
<b>CRITICAL THINKING FOR GROUP DISCUSSION</b>	<b>32</b>
<b>PRACTICAL EXERCISE</b>	<b>32</b>
<b>REFERENCES</b>	<b>32</b>

## CHAPTER

## 2

<b>CHAPTER 2 Foundations of development: Genetics and prenatal development</b>	<b>34</b>
Genetic foundations	36
<b>Research Focus 2.1: The Human Genome Project</b>	<b>37</b>
Principles of genetic inheritance	38
<i>Dominant–recessive relationships</i>	42
<i>Sex-linked traits</i>	44
<i>DNA repeat sequences</i>	45
<i>Genetic imprinting</i>	46
Chromosomal abnormalities	46
<i>Autosome abnormality</i>	46
<i>Abnormalities of the sex chromosomes</i>	47
Polygenic inheritance: The role of behaviour genetics	48
<i>Twin studies</i>	48
<i>Adoption studies</i>	50
<i>The interaction of genotype and environment</i>	51
Prenatal development	51
<i>Three prenatal periods</i>	52
Teratogenic influences	54
<i>Effects of teratogenic agents on prenatal development</i>	54
<i>Maternal diseases and disorders</i>	56
<i>Prescription and non-prescription drugs</i>	57
<i>Foetal alcohol syndrome</i>	57
<b>Research Focus 2.2: Effects of prenatal alcohol exposure</b>	<b>58</b>

Foetal learning	59
The birth process	60
<i>Assessment of the child at birth</i>	60
<i>Effects of prematurity and low birth weight</i>	60
<i>Infant mortality</i>	61
<b>CRITICAL THINKING FOR GROUP DISCUSSION</b>	<b>62</b>
<b>PRACTICAL EXERCISE</b>	<b>62</b>
<b>REFERENCES</b>	<b>63</b>

## **CHAPTER 3 Physical and motor development** **66**

Physical growth	68
Motor development	69
Normative-descriptive/maturational approach to motor skill development	70
<i>Reflexes</i>	70
<i>Emergence of voluntary movement</i>	72
<i>Refinement of voluntary movements</i>	73
Role of experience (practice) in motor development	75
<i>Orphanage studies</i>	76
<i>Cross-cultural studies</i>	76
Beyond description: Towards an understanding of underlying processes	77
<i>Dynamic-systems theory</i>	78
<i>Processes underlying motor development</i>	79
<i>Sensory–neurological processes</i>	80
<b>Case Study: The Ian Waterman case</b>	<b>81</b>
<i>Integrative–perceptual processes</i>	82
<i>Cognitive processes</i>	83
<i>Higher-order (metacognitive) processes and executive function</i>	84
Developmental coordination disorder (DCD)	85
<i>Identifying motor problems: Tests of motor ability (or impairment)</i>	86
<i>Treating motor problems</i>	86
Motor development in context: School and physical education	89
<b>Research Focus 3.1: The relationship between motor performance and peer relationships</b>	<b>89</b>
<b>CRITICAL THINKING FOR GROUP DISCUSSION</b>	<b>92</b>
<b>PRACTICAL EXERCISE</b>	<b>92</b>
<b>REFERENCES</b>	<b>93</b>

CHAPTER

3

## **CHAPTER 4 Perceptual development** **102**

Theories of sensory and perceptual development	104
<i>Environmental/learning approaches</i>	104
<i>Ethological theory: Gibsonian approaches</i>	104
<i>Cognitive developmental theories</i>	105

CHAPTER

4

<b>Vision</b>	<b>105</b>
<i>Visual acuity</i>	108
<i>Colour vision</i>	109
<i>Seeing patterns and contrasts</i>	109
<i>Face perception</i>	112
<i>Object perception</i>	113
<b>Research Focus 4.1: How do children with autism perceive 'biological motion'?</b>	<b>114</b>
<i>Space, distance and depth</i>	116
<i>Sensitivity to depth cues</i>	118
<b>Research Focus 4.2: Grasping the nature of pictures</b>	<b>120</b>
<b>Hearing and auditory perception</b>	<b>120</b>
<i>Prenatal hearing</i>	121
<i>Sensitivity to sound and sound discrimination</i>	122
<i>Music perception</i>	122
<b>Research Focus 4.3: 'I can remember the tune, but not the words'</b>	<b>123</b>
<b>Smell and taste</b>	<b>124</b>
<b>Touch</b>	<b>125</b>
<b>Pain</b>	<b>126</b>
<b>Intermodal perception</b>	<b>126</b>
<b>Research Focus 4.4: Assessing pain perception in children</b>	<b>127</b>
<b>Conclusion</b>	<b>128</b>
<b>CRITICAL THINKING FOR GROUP DISCUSSION</b>	<b>130</b>
<b>PRACTICAL EXERCISE</b>	<b>130</b>
<b>REFERENCES</b>	<b>131</b>

## CHAPTER

## 5

<b>CHAPTER 5 Stages of cognitive development: Piaget and beyond Piagetian approaches</b>	<b>138</b>
<b>What is cognitive development?</b>	<b>140</b>
<b>Piaget's cognitive-developmental theory</b>	<b>140</b>
<i>Background to Piaget's theory</i>	140
<i>Key concepts and assumptions of Piaget's theory</i>	141
<i>Piaget's model of cognitive change</i>	142
<b>Sensorimotor period</b>	<b>143</b>
<i>Substage 1 (birth to 1 month)</i>	143
<i>Substage 2 (1–4 months)</i>	143
<i>Substage 3 (4–8 months)</i>	143
<i>Substage 4 (8–12 months)</i>	144
<i>Substage 5 (12–18 months)</i>	145
<i>Substage 6 (18 months to 2 years)</i>	146
<b>Evaluating Piaget's claims: Sensorimotor period</b>	<b>146</b>
<i>Object permanence</i>	146
<i>Imitation</i>	149

<b>Research Focus 5.1: Infants imitate adult intentions as well as actions</b>	<b>151</b>
<i>Summary: Sensorimotor period</i>	151
<b>Preoperational period</b>	<b>152</b>
<i>Symbolic play</i>	152
<i>Drawings</i>	153
<b>Limitations: Preoperational thought</b>	<b>153</b>
<i>Egocentrism</i>	153
<i>Centration and conservation</i>	155
<b>Piaget's claims: Preoperational period</b>	<b>157</b>
<i>Ability to conserve</i>	157
<i>Perspective taking and egocentrism</i>	158
<i>Animism</i>	159
<i>Summary: Preoperational thinking</i>	160
<b>Research Focus 5.2: Do young children reason perceptually?</b>	<b>160</b>
<b>Concrete operational period</b>	<b>161</b>
<i>Limitations: Concrete operational thought</i>	161
<b>Transition to formal operations</b>	<b>161</b>
<b>Research Focus 5.3: Do young children always believe that illness is a form of punishment?</b>	<b>162</b>
<i>Hypothetico-deductive thought</i>	163
<i>Propositional thought</i>	164
<i>Evaluation: Formal operational period</i>	164
<b>Research Focus 5.4: Developing an understanding of the division of cognitive labour</b>	<b>165</b>
<b>Current status of Piaget's theory</b>	<b>166</b>
<i>Competence versus performance</i>	166
<i>Can stage development be accelerated?</i>	167
<i>The concept of a stage</i>	168
<b>Research Focus 5.5: Educational implications of Piaget's theory: 'Discovery learning'</b>	<b>168</b>
<b>The science of cognitive development after Piaget</b>	<b>169</b>
<i>Neo-Piagetian approaches</i>	169
<i>Cognitive complexity theory</i>	169
<b>CRITICAL THINKING FOR GROUP DISCUSSION</b>	<b>172</b>
<b>PRACTICAL EXERCISE</b>	<b>172</b>
<b>REFERENCES</b>	<b>174</b>

<b>CHAPTER 6 Cognitive development II: Information-processing, core-knowledge and sociocultural approaches</b>	<b>180</b>
<b>Information-processing approach</b>	<b>182</b>
<i>Information processing and the computer metaphor</i>	182

Basic processes I: Attentional development	183
Basic processes II: Memory development	185
<b>Research Focus 6.1: Can playing video games enhance attentional skills?</b>	<b>186</b>
<i>Methods of study</i>	187
<i>Memory during infancy</i>	188
<i>Memory development during childhood</i>	189
<b>Research Focus 6.2: The suggestibility of children's eyewitness memory</b>	<b>193</b>
<i>The development of implicit memory</i>	194
<b>Research Focus 6.3: Metamemory development and understanding false memories</b>	<b>195</b>
New directions in the information-processing approach	196
<i>Connectionist approaches</i>	197
<i>Dynamic-systems theories</i>	197
<b>Research Focus 6.4: Solving the mystery of childhood amnesia</b>	<b>199</b>
<i>Evaluation of the information-processing approach</i>	200
The core-knowledge approach	200
<i>Young children's 'theory of mind'</i>	201
<i>Summary of the core-knowledge approach</i>	205
<b>Research Focus 6.5: Theory of mind deficits in autism: 'Mind blindness' or language deprivation?</b>	<b>205</b>
The sociocultural approach	206
<i>Vygotsky's theory</i>	207
<i>Evaluation of the sociocultural approach</i>	212
Conclusion	212
<b>CRITICAL THINKING FOR GROUP DISCUSSION</b>	<b>214</b>
<b>PRACTICAL EXERCISE</b>	<b>214</b>
<b>REFERENCES</b>	<b>215</b>

## CHAPTER

## 7

<b>CHAPTER 7 Language development</b>	<b>224</b>
The components of language	226
Language and the brain	227
<i>The critical period for language acquisition</i>	228
Theories of language development	230
<i>Nativist approaches</i>	230
<i>Cognitive-developmental approaches</i>	232
<i>Environmental-interactionist and learning approaches</i>	232
Language acquisition: Preverbal period	233
<i>Speech perception</i>	233
<i>Categorical speech perception</i>	233
<i>Speech segmentation</i>	235
<i>Child-directed speech</i>	236

<b>Research Focus 7.1: 'What's new, Pussycat?' Adult speech to infants and animals</b>	<b>237</b>
<i>Early sounds</i>	238
<i>Early gestures and nonverbal responses</i>	239
<b>Word learning and semantic development during childhood</b>	<b>239</b>
<i>Early word recognition</i>	240
<i>Early word production</i>	240
<i>The vocabulary explosion</i>	241
<i>Mechanisms of early semantic development</i>	243
<b>Grammatical development during childhood</b>	<b>246</b>
<i>Sensitivity to word order</i>	246
<i>Grammatical inflections: Plurals and tenses</i>	246
<i>Mechanisms of syntactic development</i>	247
<b>Pragmatic development</b>	<b>249</b>
<i>Conversational skills</i>	249
<b>Research Focus 7.2: Language development in children with imaginary companions</b>	<b>251</b>
<b>Later developments in speech comprehension and production</b>	<b>252</b>
<b>Language and thought</b>	<b>252</b>
<b>Reading</b>	<b>253</b>
<i>Early developments</i>	254
<i>Stage models of reading development</i>	254
<b>Research Focus 7.3: Numerical thought without words: Evidence from Indigenous Australian children</b>	<b>255</b>
<i>Early reading skills</i>	257
<i>Development of comprehension skills</i>	258
<b>Research Focus 7.4: A genetic basis for literacy? Twin studies of early reading development</b>	<b>259</b>
<b>Conclusion</b>	<b>260</b>
<b>CRITICAL THINKING FOR GROUP DISCUSSION</b>	<b>262</b>
<b>PRACTICAL EXERCISE</b>	<b>262</b>
<b>REFERENCES</b>	<b>264</b>

<b>CHAPTER 8 Personality development</b>	<b>272</b>
<b>Defining personality and personality development</b>	<b>274</b>
<b>Approaches to personality and personality development</b>	<b>274</b>
<i>Freud's psychosexual approach to personality development</i>	275
<i>Erikson's approach to personality development</i>	277
<i>The behaviourist approach to personality development</i>	282
<b>Research Focus 8.1: Behavioural parent training (BPT) programs</b>	<b>283</b>
<i>The social cognitive approach: An integrated perspective</i>	284
<i>Trait approaches to personality development</i>	286

<b>Research Focus 8.2: Neuroticism, mortality and old age</b>	<b>289</b>
<b>Controversies in personality development across the lifespan</b>	<b>290</b>
<i>Stability versus change in personality development</i>	290
<i>The sociogenomic model: Integrating social cognitive and trait approaches</i>	292
<i>Contexts for personality development</i>	293
<b>Research Focus 8.3: Birth order versus rearing order and their role in personality development</b>	<b>295</b>
<b>Conclusion</b>	<b>297</b>
<b>CRITICAL THINKING FOR GROUP DISCUSSION</b>	<b>299</b>
<b>PRACTICAL EXERCISE</b>	<b>299</b>
<b>REFERENCES</b>	<b>300</b>

## CHAPTER

## 9

<b>CHAPTER 9 Social development</b>	<b>306</b>
<b>Theories of social development</b>	<b>308</b>
<i>Erikson's psychosocial theory</i>	309
<i>Bandura's social cognitive theory</i>	309
<b>Research Focus 9.1: Aggression and playing violent videos</b>	<b>310</b>
<i>Crick and Dodge's social information processing theory</i>	311
<b>Social milestones across the lifespan: Attachment</b>	<b>311</b>
<i>Attachment in infancy and childhood</i>	312
<i>Measuring the quality of attachment</i>	313
<i>Attachment in adolescence and adulthood</i>	314
<b>Research Focus 9.2: Measuring attachment behaviour in adulthood</b>	<b>315</b>
<b>Play</b>	<b>316</b>
<i>Play during infancy and childhood</i>	317
<i>Play during adolescence and adulthood</i>	318
<b>Gender identity</b>	<b>319</b>
<i>Biology and gender</i>	319
<i>Kohlberg's theory of gender constancy</i>	319
<i>Gender schema theory</i>	320
<i>Bandura's social cognitive theory</i>	320
<i>Developing gender-typed behaviours</i>	321
<i>Genetic versus social influences in gender-identity development</i>	323
<b>Research Focus 9.3: Family structures, parental sex and gender-identity development today</b>	<b>324</b>
<b>Self-esteem</b>	<b>325</b>
<i>Self-esteem during adolescence and adulthood</i>	326
<b>Social relationships</b>	<b>327</b>
<i>Social relationships during childhood and adolescence: The peer group</i>	327
<i>Social relationships during adulthood</i>	328

<b>Research Focus 9.4: Does working at relationships work?</b>	<b>330</b>
<b>Antisocial development</b>	<b>331</b>
<i>Bullying and aggression</i>	331
<i>Bullying and aggression in adulthood</i>	333
<i>Racial prejudice</i>	333
<b>Research Focus 9.5: Reducing prejudice towards Aboriginal Australians</b>	<b>336</b>
<b>Contexts for social development</b>	<b>338</b>
<i>The family context</i>	338
<i>The peer context</i>	339
<i>The cultural context</i>	341
<b>Conclusion</b>	<b>341</b>
<b>CRITICAL THINKING FOR GROUP DISCUSSION</b>	<b>343</b>
<b>PRACTICAL EXERCISE</b>	<b>343</b>
<b>REFERENCES</b>	<b>344</b>

<b>CHAPTER 10 Emotional development</b>	<b>352</b>
<b>Defining emotion and emotional development</b>	<b>354</b>
<b>Theories of emotional development</b>	<b>356</b>
<i>Psychoanalytic theory</i>	356
<b>Research Focus 10.1: The Albert B. study</b>	<b>357</b>
<i>Behaviourist theory</i>	358
<i>Cognitive developmental theory</i>	358
<i>Trait theory: Temperament</i>	358
<b>Research Focus 10.2: The trait of emotional intelligence (EI): What is it?</b>	<b>360</b>
<i>Biological and evolutionary theory</i>	361
<i>Dynamic-systems theory</i>	362
<b>Elements of emotional development</b>	<b>364</b>
<b>Research Focus 10.3: Research examining emotional resilience during infancy and childhood</b>	<b>364</b>
<i>Expression of emotions</i>	365
<i>Regulation of emotional experience</i>	370
<i>Understanding and recognition of emotions</i>	373
<b>Research Focus 10.4: The role of emotions in the workplace</b>	<b>374</b>
<b>Problems in emotional development</b>	<b>376</b>
<b>Research Focus 10.5: Emotional problems and suicide in Australia</b>	<b>376</b>
<i>Consequences of emotional distress</i>	377
<b>Contexts for emotional development</b>	<b>378</b>
<i>The family context</i>	378
<i>The peer context</i>	380
<i>Culture as a context for emotional development</i>	381
<b>Research Focus 10.6: Cross-differences in emotional expressiveness</b>	<b>381</b>

Conclusions and future directions	383
<b>Research Focus 10.7: The cultural universality of facial expressions</b>	<b>383</b>
<i>Consistent terminology for emotion-related phenomena</i>	384
<i>Improving the measurement of emotions</i>	384
<i>Hypothesis-driven longitudinal research</i>	384
<i>An interactionist model</i>	385
<b>CRITICAL THINKING FOR GROUP DISCUSSION</b>	<b>386</b>
<b>PRACTICAL EXERCISE</b>	<b>386</b>
<b>REFERENCES</b>	<b>387</b>

CHAPTER  
**11**

<b>CHAPTER 11 Moral development</b>	<b>394</b>
Moral development theory and research today	396
Approaches to moral development	396
<i>Freud's psychoanalytic approach: The superego, identification and moral development</i>	397
<i>The cognitive developmental approach: Moral judgment development</i>	399
<i>Evaluating Piaget's approach</i>	400
<b>Research Focus 11.1: Moral judgment: Choose your measure carefully</b>	<b>403</b>
<b>Indigenous Issues Focus: Cultural differences: The Dreaming and Aboriginal morality</b>	<b>405</b>
<b>Research Focus 11.2: Moral maturity: A shift from cognitive sophistication to cognitive flexibility</b>	<b>407</b>
<i>The content of moral judgments: Examining the social domain of morality</i>	407
<i>Bandura's social cognitive approach to moral development</i>	409
Moral judgment development across the lifespan	411
<b>Research Focus 11.3: Older adults and moral information processing</b>	<b>412</b>
<i>Moral (prosocial) behaviour and development</i>	413
<i>Moral emotion and development</i>	414
Relations among the judgment, emotion and behaviour facets of moral development	415
Contexts for moral development	417
<i>Peer context and moral development</i>	417
<i>Family context and moral development</i>	418
<i>Religious context and moral development</i>	420
Conclusion	421
<b>CRITICAL THINKING FOR GROUP DISCUSSION</b>	<b>422</b>
<b>PRACTICAL EXERCISE</b>	<b>422</b>
<b>REFERENCES</b>	<b>423</b>

<b>CHAPTER 12 Psychological problems and development</b>	<b>428</b>
Defining developmental psychopathology	430
<b>Information Box: Psychological problems: Help is at hand</b>	<b>431</b>
Understanding the development of psychological problems: Competing approaches	432
<i>Psychodynamic approach</i>	432
<i>Behaviourist approach</i>	432
<i>Social cognitive approach</i>	433
<i>Biological approach</i>	433
<i>The developmental psychopathology perspective</i>	433
Psychological problems associated mostly with childhood	434
<i>Autism</i>	435
<i>Attention-deficit/hyperactivity disorder (ADHD)</i>	436
Psychological problems associated mostly with adolescence	438
<i>Schizophrenia</i>	438
<b>Information Box: Schizophrenia fact file</b>	<b>440</b>
<i>Feeding and eating disorders: Bulimia nervosa, anorexia nervosa and     binge eating disorder</i>	443
Psychological problems associated mostly with adulthood	448
<i>Personality disorders</i>	449
<i>Borderline personality disorder</i>	449
<i>Organic brain disorders: Alzheimer's disease</i>	452
Psychological problems across the lifespan	453
<i>Depressive disorders: Major depression</i>	453
<i>Anxiety disorders</i>	455
<b>Research Focus 12.1: Psychological problems among Australian     asylum seekers</b>	<b>456</b>
Resilience to psychological problems	459
<i>The promotion of resilience processes among schoolchildren</i>	460
Contexts and psychological problems	460
<i>Cultural context</i>	460
<b>Research Focus 12.2: Mental health in Australia: Addressing problems     for rural adolescents and Aboriginal Australians</b>	<b>461</b>
<i>Family context</i>	462
Conclusion	463
<b>CRITICAL THINKING FOR GROUP DISCUSSION</b>	<b>465</b>
<b>PRACTICAL EXERCISE</b>	<b>465</b>
<b>USEFUL WEBSITES</b>	<b>466</b>
<b>REFERENCES</b>	<b>467</b>

## CHAPTER

## 13

<b>CHAPTER 13 Conclusions</b>	<b>473</b>
Nature <i>and</i> nurture, rather than nature <i>versus</i> nurture	474
<i>Different kinds of innateness</i>	474
<i>Nature–nurture interactions through the lifespan</i>	474
Continuity and discontinuity in development	475
Domain-specific versus domain-general approaches	476
The child as an active learner	477
Contexts of development: The family, peers, culture and society	477
<b>REFERENCES</b>	<b>478</b>
<b>Glossary</b>	<b>479</b>
<b>Author index</b>	<b>491</b>
<b>Subject index</b>	<b>501</b>
