Contents

Preface 3

Acknowledgments 8

PART I The Fundamentals

Chapter 1

The Nature and Tools of Research23

What Research Is Not 23

What Research Is 24

Philosophical Assumptions Underlying Research Methodologies 30

Tools of Research 32

The Library and Its Resources 32

Computer Technology 33

Measurement 33

Statistics 33

Language 35

PRACTICAL APPLICATION: Communicating Effectively Through Writing 37

GUIDELINES: Writing to Communicate 37

GUIDELINES: Using the Tools in Word-Processing Software 39

The Human Mind 41

Critical Thinking 41

Deductive Logic 42

Inductive Reasoning 43

Scientific Method 44

Theory Building 45

Collaboration with Other Minds 46

Reflections on Noteworthy Research 48

Exploring Research in Your Field 48

PRACTICAL APPLICATION: Identifying Important Tools in Your Discipline 49

CHECKLIST: Interviewing an Expert Researcher 50

Application Exercises 50

For Further Reading 51

PART II Focusing Your Research Efforts

Chapter 2

The Problem: The Heart of the Research Process 52

- Finding Research Projects 52
- PRACTICAL APPLICATION:** Identifying and Presenting the Research Problem or Question 54
 - GUIDELINES:** Choosing an Appropriate Problem or Question 54
 - GUIDELINES:** Writing a Purpose Statement 56
 - CHECKLIST:** Evaluating a Purpose Statement 60
- Dividing the Main Research Problem or Question into Subproblems 61
 - Subproblems Versus Pseudo-Subproblems* 62
 - Characteristics of Subproblems* 62
 - Identifying Subproblems* 63
 - Taking a Paper-and-Pencil Approach 63
 - Using Mind-Mapping (Brainstorming) Software 64
- Every Research Problem Needs Further Delineation 65
 - Identifying a Relevant Theoretical or Conceptual Framework* 66
 - Stating Hypotheses* 67
 - Distinguishing Between Research Hypotheses and Null Hypotheses in Quantitative Research 67
 - Identifying the General Concepts and Possibly Also Specific Variables That Are the Focus of the Investigation* 68
- CONCEPTUAL ANALYSIS EXERCISE:** Identifying Independent, Dependent, Mediating, and Moderating Variables 71
- Defining Terms* 71
- Stating Assumptions* 72
- Identifying Delimitations and Limitations* 72
- Importance of the Study* 73
- Writing the First Chapter or Section of a Research Proposal 73
 - PRACTICAL APPLICATION:** Writing the First Section of a Proposal 74
 - CHECKLIST:** Evaluating Your Proposed Research Project 76
 - PRACTICAL APPLICATION:** Reappraising a Proposed Research Problem 77
 - GUIDELINES:** Fine-Tuning Your Research Problem or Question 77
- Application Exercises 78
- For Further Reading 79

Chapter 3

Review of the Related Literature 82

- Understanding the Role of the Literature Review 82
- Strategies for Locating Related Literature 83
 - Using the Library Catalog* 84
 - Using Online Databases* 86

<i>Consulting with Reference Librarians</i>	89
<i>Surfing the Internet</i>	90
<i>Using Citations and Reference Lists of Scholars Who Have Gone Before You</i>	91
<i>Identifying Your Sources: The Importance of Adhering to an Appropriate Style Manual</i>	91
PRACTICAL APPLICATION: Planning a Literature Search	92
GUIDELINES: Using Your Library Time Efficiently	93
PRACTICAL APPLICATION: Evaluating the Research of Others	96
CHECKLIST: Evaluating a Research Article	97
Knowing When to Quit	98
Organizing and Synthesizing the Literature into a Cohesive Review	98
PRACTICAL APPLICATION: Writing the Literature Review	99
GUIDELINES: Writing a Clear and Cohesive Literature Review	99
A Sample Literature Review	102
Application Exercises	105
For Further Reading	105

Chapter 4

Planning Your Research Project 106

Planning a General Approach	107
<i>Research Planning Versus Research Methodology</i>	107
The Nature and Role of Data in Research	108
<i>Data Are Transient and Ever Changing</i>	108
<i>Primary Data Versus Secondary Data</i>	109
<i>Planning for Data Collection</i>	110
Linking Data and Research Methodology	112
<i>Comparing Quantitative and Qualitative Methodologies</i>	112
Combining Quantitative and Qualitative Designs	114
PRACTICAL APPLICATION: Choosing a General Research Approach	115
GUIDELINES: Deciding Whether to Use a Quantitative or Qualitative Approach	115
Choosing Methods That Enhance the Value of Your Research Project	117
<i>Enhancing the Credibility of Your Findings</i>	117
<i>Enhancing the Generalizability of Your Findings</i>	119
Choosing Appropriate Assessment Strategies	120
<i>Distinguishing Between Substantial and Intangible Phenomena</i>	120
Assessing Intangible Phenomena: An Example	121
<i>Types of Measurement Scales</i>	123
Nominal Scales	123
Ordinal Scales	124
Interval Scales	124
Ratio Scales	125
CONCEPTUAL ANALYSIS EXERCISE: Identifying Scales of Measurement	126
<i>Validity and Reliability in Assessment</i>	127

Validity of Assessment Strategies 128

Reliability of Assessment Strategies 130

Thinking of Validity and Reliability as Reflections of Error in Your Assessments 133

CONCEPTUAL ANALYSIS EXERCISE: Identifying Problems with Validity and Reliability in Assessment Strategies 133

Ethical Issues in Research 135

Protection from Harm 135

Voluntary and Informed Participation 136

Right to Privacy 138

Honesty with Professional Colleagues 139

Institutional Review Boards 139

Professional Codes of Ethics 140

PRACTICAL APPLICATION: Planning an Ethical Research Study 140

CHECKLIST: Determining Whether Your Proposed Study Is Ethically Defensible 140

Critically Scrutinizing Your Overall Plan 141

PRACTICAL APPLICATION: Judging the Feasibility of a Research Project 142

CHECKLIST: Determining Whether a Proposed Research Project Is Realistic and Practical 142

When You Can't Anticipate Everything in Advance: The Value of a Pilot Study 143

PRACTICAL APPLICATION: Developing a Plan of Attack 144

Using Project Management Software and Electronic Planners 144

Keeping an Optimistic and Task-Oriented Outlook 146

Application Exercises 146

For Further Reading 147

Chapter 5

Writing the Research Proposal 151

Characteristics of a Proposal 152

A Proposal Is a Straightforward Document 152

A Proposal Is Not a Literary Production 153

A Proposal Is Clearly Organized 153

Organizing and Writing a Research Proposal 153

Formatting Headings and Subheadings 154

PRACTICAL APPLICATION: Writing Your Proposal 155

GUIDELINES: Writing the First Draft 156

GUIDELINES: Revising Your Proposal 160

PRACTICAL APPLICATION: Strengthening Your Proposal 165

CHECKLIST: Evaluating an Early Draft of a Research Proposal 166

Final Thoughts About Proposal Writing 166

A Sample Research Proposal 167

Application Exercises 171

For Further Reading 173

PART III Research Designs

Chapter 6

Descriptive Research 174

Descriptive Research Designs	174
<i>Observation Studies</i>	175
<i>Correlational Research</i>	176
A Caution About Interpreting Correlational Results	177
<i>Developmental Designs</i>	178
<i>Experience-Sampling Methods</i>	180
<i>Survey Research</i>	181
Face-to-Face and Telephone Interviews	181
Questionnaires	182
Planning for Data Collection in a Descriptive Study	182
PRACTICAL APPLICATION: Using Checklists, Rating Scales, and Rubrics	183
PRACTICAL APPLICATION: Computerizing Observations	186
PRACTICAL APPLICATION: Planning and Conducting Interviews in a Quantitative Study	187
GUIDELINES: Conducting Interviews in a Quantitative Study	187
PRACTICAL APPLICATION: Constructing and Administering a Questionnaire	188
GUIDELINES: Constructing a Questionnaire	189
GUIDELINES: Using Technology to Facilitate Questionnaire Administration and Data Analysis	193
GUIDELINES: Maximizing Your Return Rate for a Questionnaire	194
PRACTICAL APPLICATION: Using the Internet to Collect Data for a Descriptive Study	198
Choosing a Sample in a Descriptive Study	199
<i>Sampling Designs</i>	200
Probability Sampling	200
Nonprobability Sampling	205
<i>Sampling in Surveys of Very Large Populations</i>	206
PRACTICAL APPLICATION: Identifying a Sufficient Sample Size	207
PRACTICAL APPLICATION: Choosing an Appropriate Sample in Descriptive Research	208
CHECKLIST: Considering the Nature of the Population When Identifying Your Sampling Procedure	208
Common Sources of Bias in Descriptive Studies	209
<i>Sampling Bias</i>	209
<i>Instrumentation Bias</i>	211
<i>Response Bias</i>	211
<i>Researcher Bias</i>	212
PRACTICAL APPLICATION: Acknowledging the Probable Presence of Bias in Descriptive Research	212

GUIDELINES: Identifying Possible Sampling Bias in Questionnaire Research 212

CHECKLIST: Identifying Potential Sources of Bias in a Descriptive Study 213

Interpreting Data in Descriptive Research 214

Some Final Suggestions 214

A Sample Dissertation 215

Application Exercises 218

For Further Reading 219

Chapter 7

Experimental, Quasi-Experimental, and Ex Post Facto Designs 220

The Importance of Control 222

Controlling for Confounding Variables 223

Types of Experimental, Quasi-Experimental, and Ex Post Facto Designs 227

Pre-Experimental Designs 228

Design 1: One-Shot Experimental Case Study 228

Design 2: One-Group Pretest–Posttest Design 229

Design 3: Static Group Comparison 229

True Experimental Designs 230

Design 4: Control-Group Pretest–Posttest Design 230

Design 5: Solomon Four-Group Design 230

Design 6: Control-Group Posttest-Only Design 231

Design 7: Within-Subjects Design 231

Quasi-Experimental Designs 233

Design 8: Nonrandomized Control-Group Pretest–Posttest Design 233

Design 9: Simple Time-Series Design 233

Design 10: Control-Group Time-Series Design 234

Design 11: Reversal Time-Series Design 234

Design 12: Alternating-Treatments Design 235

Design 13: Multiple-Baseline Design 235

Using Designs 11, 12, and 13 in Single-Case Intervention Research 237

Ex Post Facto Designs 239

Design 14: Simple Ex Post Facto Design 240

Factorial Designs 240

Design 15: Two-Factor Experimental Design 240

Design 16: Combined Experimental and Ex Post Facto Design 241

CONCEPTUAL ANALYSIS EXERCISE: Identifying Quantitative Research Designs 245

PRACTICAL APPLICATION: Determining Possible Cause-and-Effect Relationships 246

CHECKLIST: Looking for Confounding Variables 246

Meta-Analyses 248

Conducting Experiments on the Internet	248
Testing Your Hypotheses, and Beyond	249
PRACTICAL APPLICATION: Acknowledging the Probable Presence of Bias in Experimental Research	249
CHECKLIST: Identifying Potential Sources of Bias and Potential Threats to External Validity in an Experimental, Quasi-Experimental, or Ex Post Facto Study	250
A Sample Dissertation	251
Application Exercises	255
For Further Reading	255

Chapter 8

Qualitative Research Methods 258

Research Problems and Methodology Choice in Qualitative Research	259
<i>Potential Advantages of a Qualitative Approach</i>	260
Qualitative Research Designs	260
<i>Case Study</i>	260
<i>Ethnography</i>	261
<i>Phenomenological Study</i>	263
<i>Grounded Theory Study</i>	263
<i>Narrative Inquiry</i>	264
<i>Content Analysis</i>	265
CONCEPTUAL ANALYSIS EXERCISE: Choosing a Qualitative Research Design	267
Collecting Data in Qualitative Research	268
PRACTICAL APPLICATION: Ensuring That Qualitative Data Collection Yields Credible, Trustworthy Data	269
PRACTICAL APPLICATION: Selecting an Appropriate Sample for a Qualitative Study	271
PRACTICAL APPLICATION: Making Observations in a Qualitative Study	273
PRACTICAL APPLICATION: Planning and Conducting Interviews in a Qualitative Study	274
GUIDELINES: Conducting a Productive Interview	275
An Example in International Relations	279
Using Technology to Facilitate Collection of Interview Data	280
Criteria for Evaluating Qualitative Research	281
PRACTICAL APPLICATION: Planning the Logistics of a Qualitative Study	282
CHECKLIST: Pinning Down the Methodology of a Qualitative Study	282
A Sample Dissertation	283
Application Exercises	287
For Further Reading	288

Chapter 9

Mixed-Methods Designs 291

When Mixed-Methods Designs Are Most Useful and Appropriate	292
--	-----

General Categories of Mixed-Methods Research	293
<i>Convergent Designs</i>	293
<i>Exploratory Sequential Designs</i>	295
<i>Explanatory Sequential Designs</i>	296
<i>Longitudinal Mixed-Methods Designs</i>	297
<i>Multiphase Iterative Designs</i>	298
CONCEPTUAL ANALYSIS EXERCISE: Identifying Mixed-Methods Research Designs	299
Planning a Mixed-Methods Study	301
<i>Identifying Research Questions and Hypotheses</i>	301
<i>Conducting the Literature Review</i>	302
<i>Choosing One or More Appropriate Samples</i>	302
<i>Ensuring That the Study Will Have Reasonable Credibility</i>	303
<i>Analyzing and Interpreting the Data</i>	304
Special Ethical Considerations in Mixed-Methods Research	304
PRACTICAL APPLICATION: Deciding Whether to Use a Mixed-Methods Design	305
CHECKLIST: Pinning Down the Logistics and Feasibility of a Mixed-Methods Study	305
A Sample Dissertation	306
Application Exercises	310
For Further Reading	311

Chapter 10

Action Research and Participatory Designs 314

Action-Oriented Models and Designs	316
<i>Action Research/Teacher Research</i>	316
<i>Design-Based Research (DBR)</i>	318
<i>Participatory Action Research (PAR) and Youth Participatory Action Research (YPAR)</i>	319
<i>Community-Based Research (CBR) Models</i>	321
Course-Based Action Research	322
Community-Based Participatory Research	323
Community-Based Qualitative Research	323
CONCEPTUAL ANALYSIS EXERCISE: Choosing an Action-Oriented Design	324
PRACTICAL APPLICATION: Deciding Whether to Use Action Research and/or a Participatory Design	325
CHECKLIST: Pinning Down the Logistics and Feasibility of Action Research, a Participatory Design, or a Combination of the Two	325
Data Collection and Analysis in Action Research	327
Disseminating the Findings of Action Research Projects	328
PRACTICAL APPLICATION: Using Community Forums as a Means of Disseminating the Results of Action Research and Participatory Research Projects	330
GUIDELINES: Planning and Conducting an Effective Community Forum	330
A Sample Research Report	331

Application Exercises	335
For Further Reading	336

PART IV Data Analyses

Chapter 11

Analyzing Quantitative Data337

Exploring and Organizing a Data Set	337
<i>Organizing Data to Make Them Easier to Think About and Interpret</i>	339
<i>Using Computer Spreadsheets to Organize and Analyze Data</i>	342
Choosing Appropriate Statistics	343
<i>Functions of Statistics</i>	344
Statistics as Estimates of Population Parameters	344
<i>Considering the Nature of the Data</i>	345
Single-Group Versus Multi-Group Data	345
Continuous Versus Discrete Variables	345
Nominal, Ordinal, Interval, and Ratio Data	345
Normal and Non-Normal Distributions	346
Choosing Between Parametric and Nonparametric Statistics	348
Descriptive Statistics	349
<i>Measures of Central Tendency</i>	349
Curves Determine Means	351
Measures of Central Tendency as Predictors	352
<i>Measures of Variability: Dispersion and Deviation</i>	353
How Great Is the Spread?	354
Using the Mean and Standard Deviation to Calculate Standard Scores	355
Keeping Measures of Central Tendency and Variability in Perspective	357
<i>Measures of Association: Correlation</i>	358
How Validity and Reliability of Assessment Strategies Affect Correlation Coefficients	360
A Reminder About Correlations	361
Inferential Statistics	361
<i>Estimating Population Parameters</i>	361
An Example: Estimating a Population Mean	362
Point Versus Interval Estimates	363
<i>Testing Hypotheses</i>	364
Making Errors in Hypothesis Testing	365
Examples of Statistical Techniques for Testing Hypotheses	367
<i>Meta-Analysis</i>	369
Using Statistical Software Packages	370
Interpreting the Data	371
PRACTICAL APPLICATION: Analyzing and Interpreting Data in a Quantitative Study	372

- CHECKLIST: Choosing Statistical Procedures 372
- A Sample Dissertation 373
- Application Exercises 376
- For Further Reading 377

Chapter 12

Analyzing Qualitative and Mixed-Methods Data 380

- Qualitative Analysis Strategies 381
- General Strategies for Organizing and Analyzing Qualitative Data* 381
- Creswell's Data Analysis Spiral* 387
- An Example: Data Analysis in a Grounded Theory Study* 387
- An Example: Data Analysis in a Content Analysis Study* 389
- An Example: Data Analysis in an Ethnographic Study* 390
- PRACTICAL APPLICATION: Using Computer Databases to Facilitate Data Organization and Analysis 391
- Acknowledging the Role of Researcher-as-Instrument in Qualitative Research 392
- PRACTICAL APPLICATION: Planning Data Analysis for a Qualitative Study 393
- CHECKLIST: Pinning Down the Data Analysis in a Qualitative Study 393
- Analyzing and Interpreting Mixed-Methods Data 395
- PRACTICAL APPLICATION: Using Computer Software Programs to Facilitate Mixed-Methods Data Analysis 398
- Systematic Reviews of Qualitative and Mixed-Methods Studies 399
- PRACTICAL APPLICATION: Observing How Experienced Researchers Have Conducted Qualitative and Mixed-Methods Research 400
- CHECKLIST: Evaluating a Qualitative or Mixed-Methods Study 401
- A Sample Dissertation 402
- Application Exercises 407
- For Further Reading 407

PART V Research Reports

Chapter 13

Planning and Preparing a Final Research Report 410

- Getting Started 410
- Surfing the Internet for Writing Assistance* 411
- Learn by Looking* 411
- Essential Elements of a Research Report 411
- Explanation of the Research Problem or Question* 412
- Description of Study Design and Data-Collection Methods* 412
- Presentation of the Data and Their Analyses* 412
- Interpretations of the Data* 414
- Identification of Possible Weaknesses of the Study* 415

<i>Summary and Connections to a Broader Context</i>	416
<i>Maintaining Your Academic Integrity</i>	416
Front Matter and End Matter	417
<i>Preliminary Pages</i>	417
<i>Footnotes and Endnotes</i>	418
<i>Reference List</i>	418
<i>Appendix Content</i>	421
Organizing a Research Report	421
Writing—and Finishing!—a Report	423
PRACTICAL APPLICATION: Writing Your Final Report	424
GUIDELINES: Writing a Clear, Coherent Report	424
PRACTICAL APPLICATION: Developing a Writing Schedule	426
GUIDELINES: Pinning Down and Adhering to a Workable Schedule	426
PRACTICAL APPLICATION: Critiquing a Final Research Report	427
CHECKLIST: Criteria for Critiquing a Research Report	428
Beyond the Unpublished Research Report: Presenting and Publishing	430
<i>Conference Presentations</i>	430
PRACTICAL APPLICATION: Presenting Your Research at a Professional Conference	430
GUIDELINES: Presenting an Effective Paper or Poster	431
<i>Journal Articles</i>	432
<i>Sharing Authorship</i>	433
<i>Responding to Reviewers' Critiques</i>	433
A Closing Thought	434
Application Exercises	434
For Further Reading	435

APPENDICES

Appendix A **Using a Spreadsheet: Microsoft Excel 436**

Using Excel to Keep Track of Literature Resources	436
Using Excel to Record and Recode Data	438
Reorganizing Data in Excel	441
Using Excel to Perform Simple Statistical Analyses	442

Appendix B **Using SPSS 444**

Creating a Data Set	444
Computing Basic Descriptive Statistics	446
Computing Inferential Statistics	447

Glossary 450

References 460

Index 467
