PART 1: INTRODUCTION TO FINANCIAL MANAGEMENT

PART 1: INTRODUCTION TO FINANCIAL MANAGEMENT	31
----------------------------------------------------	----

Chapter 1: Getting started—Principles of finance

Introduction: Getting started—Principles of finance	32
Learning objectives.....	33
Principles of finance.....	33
Finance Spotlight: Your money: Welcome to the world of finance	33
1.1: Finance—An overview	
1.1: Finance—An overview	34
What is finance?	34
Why study finance?	35
1.2: Three types of business organisation	
1.2: Three types of business organisation	36
Sole proprietorship.....	38
Partnership	38
Corporation	38
How does finance fit into a firm's organisational structure?	40
1.3: The goal of the financial manager	
1.3: The goal of the financial manager.....	41

Maximising shareholder wealth.....	42
Ethical considerations in corporate finance.....	43
Finance Spotlight: Your money: Ethical issues arising from Bond issues.....	44

1.4: The five basic principles of finance

1.4: The five basic principles of finance	45
The five principles explained	45

Summary: Getting started - Principles of finance

Applying the principles of finance to Chapter 1... ..	50
Mind map summary	51
Summary of chapter objectives	51
Study questions.....	53

Chapter 2: Firms and the financial market

Introduction: Firms and the financial market	54
Learning objectives.....	55
Principles of finance	56
Finance Spotlight: Your money: The basics of personal finance.....	56
2.1: The basic structure of the Australian financial markets	
2.1: The basic structure of the Australian financial markets.....	56
2.2 The financial marketplace—Financial institutions	
2.2: The financial marketplace—Financial institutions	57
Commercial banks: Everyone's financial marketplace	58
Non-bank financial intermediaries.....	60
Investment companies.....	61
Finance Spotlight: Your money: Controlling costs in managed funds.....	63
2.3: The financial marketplace—Securities markets	
2.3: The financial marketplace—Securities markets.....	64
How securities markets bring corporations and investors together	64
Types of security	65
Stock markets	71

Sample pages

Finance Spotlight: International: Where's the money around the world?	73
Financial markets and the Global Financial Crisis (GFC)	74
Summary: Firms and the financial market	
Applying the principles of finance to Chapter 2... ..	75
Mind map summary	75
Summary of chapter objectives	76
Study questions.....	77

Chapter 3: Understanding financial statements, taxes and cash flows

Introduction: Understanding financial statements, taxes and cash flows.....	78
Learning objectives.....	79
Principles of finance	80
Finance Spotlight: Your money: Accounting is the language of business.....	80
3.1: An overview of the firm's financial statements	
3.1: An overview of the firm's financial statements	81
Basic financial statements	81
Why study financial statements?	82
What are the accounting principles used to prepare financial statements?	82
3.2: The income statement	
3.2: The income statement.....	84
Income statement of H. J. Boswell Ltd	84
Connecting the income statement and the balance sheet.....	87
Interpreting firm profitability using the income statement.....	87
IFRS and earnings management	88
Checkpoint 3.1: Constructing an income statement.....	88
3.3: Corporate tax, personal tax and dividend imputation	
3.3: Corporate tax, personal tax and dividend imputation	90
Calculating taxable income and company tax payable	90
Personal income tax	91
Capital gains tax.....	92
Other taxes.....	92

Checkpoint 3.2: Calculation of personal income tax and capital gains tax	93
Dividend imputation.....	95
Checkpoint 3.3: Comparison between a classical tax system and a dividend imputation tax system	98

3.4 The balance sheet

3.4: The balance sheet.....	100
The balance sheet of H. J. Boswell Ltd	101
Firm liquidity and net working capital.....	105
Debt and equity financing	107
Checkpoint 3.4: Constructing a balance sheet.....	107
Book values, historical costs and market values.	109
Finance spotlight: Your money: Your personal balance sheet and income statement	109
Tools of financial analysis: Financial statement relationships	110

3.5 The cash flow statement

3.5 The cash flow statement.....	111
Sources and uses of cash.....	112
H. J. Boswell's cash flow statement.....	115
Finance Spotlight: International: IFRS versus GAAP	119
Checkpoint 3.5: Interpreting the statement of cash flows	120
Tools of financial analysis.....	123

Summary: Understanding financial statements, taxes and cash flows

Applying the principles of finance to Chapter 3.....	123
Mind map summary	124
Summary of chapter objectives	124
Study questions.....	127
Study problems	128
Mini-case.....	132

Chapter 4: Financial analysis: Sizing up firm performance

Introduction: Financial analysis: Sizing up firm performance	136
Learning objectives.....	137
Principles of finance	138
Finance Spotlight: Financial ratios and business.....	138
4.1: Why do we analyse financial statements?	
4.1: Why do we analyse financial statements?	139

4.2: Common-size statements—Standardising financial information

4.2: Common-size statements—Standardising financial information	139
The common-size income statement: H. J. Boswell Ltd.....	140
The common-size balance sheet: H. J. Boswell Ltd.....	141

4.3: Using financial ratios

4.3: Using financial ratios.....	143
Liquidity ratios.....	144
Checkpoint 4.1: Evaluating James Hardie Industries PLC's liquidity.....	149
Capital structure ratios.....	153
Checkpoint 4.2: Comparing the financing decisions of Wesfarmers Ltd and Woolworths Ltd	154
Asset management efficiency ratios	157
Profitability ratios	159
Checkpoint 4.3: Evaluating the return on assets for Wesfarmers Ltd and Woolworths Ltd.....	167
Market value ratios.....	170
Finance Spotlight: Your money: Your cash budget and personal savings ratio.....	172
Checkpoint 4.4: Comparing Treasury Wine Estates with Australian Vintage using market value ratios.....	172
Summing up the financial analysis of H. J. Boswell Ltd.....	175
Finance Spotlight: International: Ratios and international accounting standards.....	177

4.4: Selecting a performance benchmark

4.4: Selecting a performance benchmark.....	178
Trend analysis	178
Peer-firm comparisons	180

4.5: Limitations of ratio analysis

4.5: Limitations of ratio analysis	181
------------------------------------------	-----

Summary: Financial analysis: Sizing up firm performance

Applying the principles of finance to Chapter 4.....	184
Mind map summary.....	185
Summary of chapter objectives	185
Study questions.....	189
Study problems.....	190
Mini-case.....	214

PART 2: VALUATION OF FINANCIAL ASSETS

PART 2: VALUATION OF FINANCIAL ASSETS.....	215
--------------------------------------------	-----

Chapter 5: The time value of money—The Basics

Introduction: The time value of money—The Basics ..	216
-----------------------------------------------------	-----

Learning objectives.....	217
--------------------------	-----

Principles of finance	218
-----------------------------	-----

Finance Spotlight: Your money: A dollar saved is two dollars earned	218
---------------------------------------------------------------------------	-----

5.1: Using timelines to visualise cash flows

5.1: Using timelines to visualise cash flows.....	219
---------------------------------------------------	-----

Checkpoint 5.1: Creating a timeline	220
-------------------------------------------	-----

5.2: Compounding and future value

5.2: Compounding and future value	220
-----------------------------------------	-----

Compound interest and time	224
----------------------------------	-----

Compound interest and the interest rate	225
-----------------------------------------------	-----

Techniques for valuing cash flows at different points in time.....	225
--------------------------------------------------------------------	-----

Applying compounding to things other than money.....	226
------------------------------------------------------	-----

Checkpoint 5.2: Calculating the future value of a cash flow	227
-------------------------------------------------------------------	-----

Compound interest with shorter compounding periods.....	228
---------------------------------------------------------	-----

Checkpoint 5.3: Calculating future values using non-annual compounding periods	229
--------------------------------------------------------------------------------------	-----

Finance Spotlight: Your money: Saving for your first house	230
------------------------------------------------------------------	-----

5.3: Discounting and present value

5.3: Discounting and present value.....	231
-----------------------------------------	-----

The mechanics of discounting future cash flows	232
------------------------------------------------------	-----

Checkpoint 5.4: Solving for the present value of a future cash flow.....	233
--------------------------------------------------------------------------	-----

Discounting with shorter discounting periods ...	234
--------------------------------------------------	-----

Two additional types of discounting problem ...	235
-------------------------------------------------	-----

The Rule of 72.....	238
---------------------	-----

Checkpoint 5.5: Solving for the number of periods, n	238
------------------------------------------------------------	-----

Checkpoint 5.6: Solving for the interest rate, i	239
-------------------------------------------------------	-----

5.4: Making interest rates comparable

5.4: Making interest rates comparable.....	240
--------------------------------------------	-----

Calculating the interest rate and converting it to an EAR.....	242
Checkpoint 5.7: Calculating an effective annual rate (EAR).....	243
To the extreme: Continuous compounding.....	244

Summary: The time value of money – The Basics

Applying the principles of finance to Chapter 5.....	245
Mind map summary.....	245
Summary of chapter objectives.....	246
Study questions.....	249
Study problems.....	249
Mini-case.....	252

Chapter 6: The time value of money – Annuities and other topics

Introduction: The time value of money – Annuities and other topics.....	254
Learning objectives.....	254
Principles of finance.....	255
Finance Spotlight: Your money: Annuities we all know.....	255

6.1 Annuities

6.1 Annuities.....	256
Ordinary annuities.....	256
Checkpoint 6.1: Solving for an ordinary annuity payment.....	265
Checkpoint 6.2: The present value of an ordinary annuity.....	266
Amortised loans.....	267
Checkpoint 6.3: Determining the outstanding balance of a loan.....	270
Annuities due.....	273
Finance Spotlight: Your money: Saving for retirement.....	274

6.2 Perpetuities

6.2 Perpetuities.....	275
Calculating the present value of a level perpetuity.....	275
Checkpoint 6.4: The present value of a level perpetuity.....	276
Calculating the present value of a growing perpetuity.....	277
Checkpoint 6.5: The present value of a growing perpetuity.....	277

6.3 Complex cash-flow streams

6.3 Complex cash-flow streams.....	279
Checkpoint 6.6: The present value of a complex cash-flow stream.....	280

Summary: The time value of money – Annuities and other topics

Applying the principles of finance to Chapter 6.....	283
Mind map summary.....	283
Summary of chapter objectives.....	284
Study questions.....	286
Study problems.....	287
Mini-case.....	295

Chapter 7: Risk and return – An introduction: History of financial market returns

Introduction: Risk and return – An introduction: History of financial market returns.....	297
Learning objectives.....	298
Principles of finance.....	299
Finance Spotlight: Using statistics.....	299

7.1: Realised and expected rates of return and risk

7.1: Realised and expected rates of return and risk.....	300
Calculating the realised return from an investment.....	300
Calculating the expected return from an investment.....	302
Checkpoint 7.1: Evaluating an investment’s return and risk.....	310

7.2: A brief history of financial market returns

7.2: A brief history of financial market returns ...	312
Australian financial markets: Domestic investment returns.....	312
Lessons learned.....	315
Australian shares versus other categories of investment.....	315
Global financial markets: International investing.....	316
Finance Spotlight: Your money: Determining your tolerance for risk.....	319

7.3: Geometric versus arithmetic average rates of return

7.3: Geometric versus arithmetic average rates of return.....	319
---------------------------------------------------------------	-----

Calculating the geometric or compound average rate of return.....	320
Choosing the right 'average'	321
Checkpoint 7.2: Calculating the arithmetic and geometric average rates of return	322

7.4: What determines share prices?

7.4: What determines share prices?	324
The efficient markets hypothesis	325
Do we expect financial markets to be perfectly efficient?	326
Market efficiency: What does the evidence show?.....	327

Summary: Risk and return—An introduction History of financial market returns

Applying the principles of finance to Chapter 7.....	329
Mind map summary	329
Summary of chapter objectives	330
Study questions.....	334
Study problems	334
Mini-case	338

Chapter 8: Risk and return—Capital market theory

Introduction: Risk and return—Capital market theory	340
Learning objectives.....	341
Principles of finance	342
Finance Spotlight: Your money: Risk and your personal investment plan	342

8.1 Portfolio returns and portfolio risk

8.1 Portfolio returns and portfolio risk	342
Calculating the expected return of a portfolio	343
Checkpoint 8.1: Calculating a portfolio's expected rate of return.....	344
Evaluating portfolio risk	345
Calculating the standard deviation of a portfolio's returns	347
Finance Spotlight: International: International diversification.....	352
Checkpoint 8.2: Evaluating a portfolio's risk and return.....	352
Tools of financial analysis: Portfolio expected return and standard deviation	355

8.2 Systematic risk and the market portfolio

8.2 Systematic risk and the market portfolio.....	356
Diversification and unsystematic risk	357
Systematic risk and beta.....	358
Calculating the portfolio beta.....	362
Tools of financial analysis.....	363

8.3 The security market line and the CAPM

8.3 The security market line and the CAPM.....	364
Using the CAPM to estimate expected rates of return.....	367
Checkpoint 8.3: Estimating the expected rate of return using the CAPM.....	368
Tools of financial analysis.....	369

Summary: Risk and return—Capital market theory

Applying the principles of finance to Chapter 8.....	370
Mind map summary	370
Summary of chapter objectives	371
Study questions.....	373
Study problems	374
Mini-case	383

Chapter 9: Share valuation

Introduction: Share valuation	385
Learning objectives.....	386
Principles of finance	387
Finance spotlight: Your money: Getting your fair share	387

9.1: Ordinary shares

9.1: Ordinary shares.....	387
Characteristics of ordinary shares	388
Finance Spotlight: Your money: Does a share by any other name smell as sweet?	388
Voting rights.....	389
Agency costs and ordinary shares	390
Valuing ordinary shares using the discounted dividend model.....	391
Checkpoint 9.1: Valuing ordinary shares.....	395
Determinants of the investor's required rate of return.....	396
Determinants of the growth rate of future dividends	397

9.2: The comparables approach to valuing ordinary shares

9.2: The comparables approach to valuing ordinary shares.....	400
---------------------------------------------------------------	-----

Defining the price/earnings (P/E) ratio valuation model.....	401	Checkpoint 10.2: Calculating the yield to maturity on a corporate bond.....	441
What determines the P/E ratio for a share?	402	Step 3: Calculate the present value using the discounted cash flow	443
Checkpoint 9.2: Valuing ordinary shares using the P/E ratio.....	404	Checkpoint 10.3: Valuing a bond issue	445
An aside on managing for shareholder value	406	Checkpoint 10.4: Valuing a bond issue that pays semi-annual interest	447
9.3: Preference shares		10.3: Bond valuation—Four key relationships	
9.3: Preference shares	407	10.3: Bond valuation—Four key relationships	448
Features of preference shares	407	First relationship	449
Valuing preference shares.....	409	Second relationship	451
Checkpoint 9.3: Valuing preference shares.....	412	Third relationship	452
A quick review: Valuing bonds, preference shares and ordinary shares.....	413	Fourth relationship	453
Summary: Share valuation		10.4: Types of bond	
Applying the principles of finance to Chapter 9.....	414	10.4: Types of bond	455
Mind map summary	414	Basic bond attributes	457
Summary of chapter objectives	415	Finance Spotlight: International: International bonds	458
Study questions.....	418	10.5: Determinants of interest rates	
Study problems	418	10.5: Determinants of interest rates	459
Mini-case	421	Inflation and real versus nominal interest rates..	459
		Checkpoint 10.5: Solving for the real rate of interest.....	460
Chapter 10: Debt valuation and interest rates		Interest rate determinants: Breaking it down.....	462
Introduction: Debt valuation and interest rates.....	422	Checkpoint 10.6: Solving for the nominal rate of interest.....	464
Learning objectives.....	423	The maturity-risk premium and the term structure of interest rates.....	465
Principles of finance	424	Summary: Debt valuation and interest rates	
Finance Spotlight: Your money: Borrow now, pay later	424	Applying the principles of finance to Chapter 10.....	470
10.1: Overview of government and corporate debt		Mind map summary	470
10.1: Overview of government and corporate debt	425	Summary of chapter objectives	471
Borrowing money in the private financial market	425	Study questions.....	474
Borrowing money in the public financial market	428	Study problems	474
Checkpoint 10.1: Calculating the rate of interest on a floating-rate loan.....	430	Mini-case	478
Basic bond features.....	433	PART 3: CAPITAL BUDGETING	
Finance Spotlight: Your money: Fixed- and variable-rate mortgages	437	PART 3: CAPITAL BUDGETING	480
10.2: Valuing bonds		Chapter 11: Investment decision criteria	
10.2: Valuing bonds.....	437	Introduction: Investment decision criteria	481
Step 1: Determine bondholder cash flows	439	Learning objectives.....	482
Step 2: Estimate the appropriate discount rate ...	439	Principles of finance	483

Finance Spotlight: Your money: Making personal investment decisions.....	483	Study problems	529
11.1 An overview of capital budgeting		Mini-cases	537
11.1 An overview of capital budgeting	484	Chapter 12: Analysing project cash flows	
The typical capital budgeting process.....	485	Introduction: Analysing project cash flows	540
What are the sources of good investment projects?	485	Learning objectives.....	540
Types of capital investment project.....	485	Principles of finance	541
11.2 Net present value		Finance Spotlight: The Internet on airline flights—Making it happen	542
11.2 Net present value	487	12.1 Project cash flows	
Why is NPV the right criterion?.....	488	12.1 Project cash flows.....	542
Calculating an investment's NPV	488	Incremental cash flows are what matters.....	543
Independent versus mutually exclusive investment projects	489	Guidelines for forecasting incremental cash flows	544
Checkpoint 11.1: Calculating the NPV for Project Long.....	492	12.2 Forecasting project cash flows	
Checkpoint 11.2: Calculating the equivalent annual cost (EAC)	495	12.2 Forecasting project cash flows.....	547
11.3 Other investment criteria		Dealing with depreciation expense, tax and cash flow	547
11.3 Other investment criteria	497	Four-step procedure for calculating project cash flows	548
Checkpoint 11.3: Calculating the profitability index for Project Long.....	499	Checkpoint 12.1: Forecasting a project's operating cash flow	552
Internal rate of return.....	501	Calculating project NPV	555
Checkpoint 11.4: Calculating the IRR for Project Long.....	508	12.3 Inflation and capital budgeting	
Checkpoint 11.5: The problem of multiple IRRs for projects	511	12.3 Inflation and capital budgeting	557
Modified internal rate of return	512	12.4 Replacement project cash flows	
Finance Spotlight: Your money: Higher education as an investment in yourself.....	513	12.4 Replacement project cash flows	558
Checkpoint 11.6: Calculating the modified internal rate of return (MIRR).....	514	Identifying cash flows for replacement projects .	558
Payback period.....	515	Checkpoint 12.2: Calculating free cash flows for a replacement investment.....	560
Discounted payback period.....	517	Replacement example.....	563
Summarising the alternative decision rules	520	Finance Spotlight: International: Entering new markets.....	564
11.4 A glance at actual capital budgeting practices		Summary: Analysing project cash flows	
11.4 A glance at actual capital budgeting practices	522	Applying the principles of finance to Chapter 12.....	565
Summary: Investment decision criteria		Mind map summary	565
Applying the principles of finance to Chapter 11.....	524	Summary of chapter objectives	566
Mind map summary	524	Study questions.....	569
Summary of chapter objectives	525	Study problems	570
Study questions.....	528	Mini-cases	581
		Appendix: The diminishing value depreciation method	586

Chapter 13: Risk analysis and project evaluation

Introduction: Risk analysis and project evaluation.....	589
Learning objectives.....	590
Principles of finance.....	591
Finance Spotlight: Your money: Project risk for entrepreneurs.....	591
13.1: The importance of risk analysis	
13.1: The importance of risk analysis	591
13.2: Relevant measures of risk in capital budgeting	
13.2: Relevant measures of risk in capital budgeting.....	592
Measuring risk for capital budgeting purposes, and a dose of reality	594
Finance Spotlight: International: Global strategies to reduce risk.....	595
13.3: Incorporating risk into the capital-budgeting process	
13.3: Incorporating risk into the capital-budgeting process.....	595
Risk-adjusted discount rates	596
Checkpoint 13.1: Risk-adjusted discount rate	598
Certainty-equivalent approach	600
Checkpoint 13.2: Certainty equivalents in capital budgeting.....	601
Certainty-equivalent versus risk-adjusted discount rate methods.....	603
Risk-adjusted discount rate and measurement of a project's systematic risk	604
13.4: Tools for analysing the risk of project cash flows	
13.4: Tools for analysing the risk of project cash flows.....	607
Key concepts: Expected values and value drivers	607
Checkpoint 13.3: Forecasting revenue using expected values.....	608
Sensitivity analysis	610
Checkpoint 13.4: Project risk analysis: Sensitivity analysis.....	614
Scenario analysis.....	617
Checkpoint 13.5: Project risk analysis: Scenario analysis.....	620
Simulation analysis.....	621
Probability trees	623
Finance Spotlight: International: Currency risk..	625

13.5: Real options in capital budgeting	
13.5: Real options in capital budgeting	626
Checkpoint 13.6: Analysing real options: option to expand.....	627
Summary: Risk analysis and project evaluation	
Applying the principles of finance to Chapter 13.....	629
Mind map summary	629
Summary of chapter objectives	630
Study questions.....	632
Study problems	632
Mini-case.....	644

Chapter 14: The cost of capital

Introduction: The cost of capital.....	646
Learning objectives.....	647
Principles of finance.....	648
Finance Spotlight: Your money: Understanding the role of the cost of capital	648
14.1: The cost of capital - An overview	
14.1: The cost of capital - An overview	649
Investor's required return and the firm's cost of capital	651
WACC equation	652
Three-step procedure for estimating the firm's WACC.....	653
14.2 Determining the firm's capital-structure weights	
14.2 Determining the firm's capital-structure weights.....	655
Checkpoint 14.1: Calculating the WACC for Templeton Extended Care Facilities Ltd	657
14.3 Estimating the cost of individual sources of capital	
14.3 Estimating the cost of individual sources of capital	659
The cost of debt	659
The cost of preference shares.....	662
The cost of ordinary shares.....	663
Checkpoint 14.2: Estimating the cost of ordinary shares for Qantas Airways Ltd [QAN] using the dividend growth model	665
Estimating the rate of growth.....	667
Checkpoint 14.3: Estimating the cost of ordinary shares for Qantas Airways Ltd [QAN] using the CAPM.....	670

14.4 Summing up—Calculating the firm's weighted average cost of capital	
14.4 Summing up—Calculating the firm's weighted average cost of capital	672
14.5 Estimating project costs of capital	
14.5 Estimating project costs of capital	673
The rationale for using multiple discount rates ..	674
Why don't firms typically use project costs of capital?	675
Estimating divisional WACCs.....	675
Finance Spotlight: International: Why do interest rates differ between countries?	679
14.6 Flotation costs and project NPV	
14.6 Flotation costs and project NPV	679
Checkpoint 14.4: Incorporating flotation costs into the calculation of NPV	681
Summary: The cost of capital	
Applying the principles of finance to Chapter 14.....	683
Mind map summary	684
Summary of chapter objectives	684
Study questions.....	687
Study problems	688
Mini-case.....	693

PART 4: CAPITAL-STRUCTURE AND DIVIDEND POLICY

PART 4: CAPITAL-STRUCTURE AND DIVIDEND POLICY.....	695
-----------------------------------------------------------	------------

Chapter 15: Analysis and impact of leverage

Introduction: Analysis and impact of leverage.....	696
Learning objectives.....	697
Principles of finance	698
Finance Spotlight: Your money: Good debt and bad debt	698
15.1: Business and financial risk	
15.1: Business and financial risk.....	698
15.2: Break-even analysis	
15.2: Break-even analysis	701
Accounting break-even analysis	702
Checkpoint 15.1: Project risk analysis: Accounting break-even analysis	705
NPV break-even analysis	707
Limitations of break-even analysis.....	711

15.3: Operating and financial leverage	
15.3: Operating and financial leverage.....	712
Operating leverage	712
Financial leverage	716
Finance Spotlight: International: Fixed operating costs	720
Combination of operating leverage and financial leverage.....	720
Checkpoint 15.2: Operating, financial and combined leverage.....	723
Implications of leverage analysis.....	726
15.4: EBIT–EPS analysis	
15.4: EBIT–EPS analysis.....	727
Evaluating the effect of financial leverage on firm earnings per share.....	727
Checkpoint 15.3: Evaluating the effect of financing decisions on EPS	732
Summary: Analysis and impact of leverage	
Applying the principles of finance to Chapter 15.....	735
Mind map summary	736
Summary of chapter objectives	736
Study questions.....	739
Study problems	739
Mini-case.....	745

Chapter 16: Capital-structure policy

Introduction: Capital-structure policy.....	747
Learning objectives.....	748
Principles of finance	749
Finance Spotlight: Your money: Capital structure matters to you!	749
16.1: A glance at capital-structure choices in practice	
16.1: A glance at capital-structure choices in practice	750
Defining a firm's capital structure	750
Financial leverage	753
How do firms in different industries finance their assets?.....	753
16.2: Capital-structure theory	
16.2: Capital-structure theory.....	754
A first look at the Modigliani and Miller capital-structure theorem.....	755
Yogi Berra and the M&M capital-structure theorem	757

Capital structure, the cost of equity and the weighted average cost of capital.....	758
Why capital structure matters in reality	761
The trade-off theory and the optimal capital structure	769
Capital-structure decisions and agency costs.....	770
Making financing choices when managers are better informed than shareholders	770
Managerial implications	771
16.3: Why do capital structures differ across industries?	
16.3: Why do capital structures differ across industries?.....	772
16.4: Making financing decisions	
16.4: Making financing decisions	773
Benchmarking the firm's capital structure.....	773
Checkpoint 16.1: Benchmarking a financing decision	775
Can the firm afford more debt?.....	778
Survey evidence: Factors that influence CFO debt policy	779
