

Pearson Mathematics 3E

For the Australian Curriculum V9.0 Maths for Years 7 to 10

Simplified teaching and energised learning.

Pearson Mathematics has been written for the Australia Curriculum V9.0 and introduces the **Pearson Secondary Teaching Hub** – a one-of-a-kind digital product designed to simplify teaching and energise learning, written by experienced Australian Educators that know how to engage students.

Simplified teaching with the Pearson Teaching Hub

We simplify teaching with a **flexible hub of digital lessons** that 4 out of 5 of teachers agree is easy to use. In just a few clicks, you can plan, save, teach and auto-assess digital lessons for every class.

Energised learning with engaging content and evidence-based research

We energise learning with **engaging content** including videos, worked examples, auto-assessing quizzes and more, split into small content chunks allowing for a read a little, do a little approach. Use the hub alongside complementary printed Student Companions to practice and consolidate learning, to give students the perfect mix of online and offline content to maximise learning.

Utilising the latest research: *Evidence-based Teaching Practices Research*, AERO (2023)

Flexible teaching and learning

Developed in consultation with educators from across Australia, the *Pearson Mathematics 3E* has been designed for classrooms that want to utilise digital and printed resources in a flexible way.

Pearson Teaching Hub provides access to:

A flexible digital hub for the whole curriculum

- Discover a library of quality content, assessment, videos, activities and more, broken into curriculum-aligned topics and lessons for years 7 to 10.
- Assign content from *Teaching Hub* directly to the LMS your students use, like Microsoft Teams or Google Classroom, no separate student logins required.
- Understand where your students are at with reporting dashboards and downloadable progress reports.

Student companion books embed learning

- Complementary to the digital hub, providing balance between onscreen and offscreen learning.
- Designed to be a portfolio of learning for students to build on throughout the year.
- Great for flipped learning, active learning, homework, revision and more.

Student Books for offline teaching

- Teachers can choose to teach lessons in the Hub or in the Student Book, with lessons corresponding between the two.

An easy curriculum transition

Everything you need to transition to the new curriculum versions in a way that works best for you and your students.

Secondary Teaching Hub provides access to:

- New digital topics written to give full coverage of the new Australian Curriculum.
- *Pearson Diagnostic* quizzes to diagnose student thinking and understanding and address misconceptions.

Downloadable resources

- For the resources that just make sense to use as downloads like teaching programs and worksheets.
- Easily accessible as digital versions and downloadables from relevant topics and lessons in the digital hub.

Your essential resource for AC Mathematics

When your school adopts *Pearson Teaching Hub*, teachers are given free access to the digital hub and students can purchase their digital subscription and student companion books via Pearson or your school's bookseller.
