

Pearson Physics Western Australia 2nd edition

Trusted throughout Western Australia to provide expert, reliable support for the WACE Physics ATAR course syllabus, **Pearson Physics Western Australia 2nd edition** is written to the level your students need.

🔍 Student book

- The Student Book has been meticulously revised for the new Physics ATAR course syllabus, and reflects the very latest developments and applications of physics.
- Based in Western Australia, the author team brings extensive experience interpreting, teaching and writing to the Physics ATAR syllabus.
- The text has been developed following best-practice literacy and instructional design principles to ensure the content and concepts are accessible to your students.

🔍 eBook with digital resources

The eBook provides access to Student Book content and digital resources, anywhere, anytime, online and offline.

Teacher eBook access includes:

- Downloadable, editable chapter tests and practice exams, supported by fully worked solutions and a formula and data booklet, updated in line with Physics ATAR examination design brief requirements.
- Editable teaching programs for each unit which map the Pearson resources to the syllabus and provide clear links to STAWA's Exploring Physics resources. The teaching programs can be used as a quick guide to the course or as templates for your own planning.
- Access to all student resources.

Learner eBook access includes:

- Fully worked solutions to all questions and worked examples in the student book.
- Carefully selected, captivating videos that support each chapter.
- A downloadable glossary of terms.
- Support for Mathematical skills for Physics ATAR.

The **Science Teachers Association of Western Australia (STAWA)** is a not-for-profit organisation that supports and advocates for science teachers.

STAWA have developed the Exploring Physics books for Year 11 and 12, which include practical experiments and problems that are designed to be used alongside Pearson's Physics for Western Australia student books and resources.

Used together, *Exploring Physics: Experiments, Investigations and Problems* and **Pearson Physics Western Australia 2nd edition** provide a complete package of support for the Science Inquiry Skills, Science as a Human Endeavour and Science Understanding strands.
